

**PRODUCT DATA SHEET**

**DESCRIPTION:**

A premium blend of highly absorbent clay granules (Fuller's Earth) and Dolomite. Particles of both minerals in this exclusive safety blend are sized to specific mesh ranges and formulated to maximize absorption, minimize dust and provide safety traction.

**PACKAGING:**

40# and 50# poly bags (100% recyclable).  
 Bags/Pallet: 55 x 40# bags/pallet  
 50 x 50# bags/pallet  
*(wooden pallet, slipsheet and stretchwrap at no charge)*  
 Bags/Truckload: 1100 x 40# bags  
 900 x 50# bags

**PRODUCT COLOR:** Buff/Tan

**PRODUCT FEATURES:**

- Clay particles are specially heat-treated to provide integrity while retaining maximum absorptive capacity. Product will NOT break down (turn to mud) even when fully saturated.
- Exclusive traction blend provides non-slip surface under foot and wheeled traffic.
- An all natural mineral blend with no chemical additives. The blend is non-toxic, non-flammable and non-hazardous for safe, long-term storage and use.
- Special production dedusting minimizes nuisance dust.

**APPLICATION:**

DRIRITE *Premium absorbent* can be used to provide a quick, simple and easy means to absorb a wide range of liquid spills and leaks around machinery, hoses, pipes, pumps and on general floor areas. It is also handy for other plant housekeeping/safety chores on exterior walkways, drives and dock areas. DRIRITE *Premium absorbent* is an excellent winter traction/safety aid. A bag or two can be conveniently carried in trucks and/or automobiles.

**DISPOSAL:**

DRIRITE *Premium absorbent* must be disposed of in compliance with local, state and federal regulations. Because a wide range of absorbed fluids may be of a toxic and/or hazardous nature, The Dri-Rite Company does not make disposal recommendations.

CAUTION: Avoid contact with strong acids.
