White Lithium Grease

BERKEBILE 2+2® WHITE LITHIUM GREASE... is a high viscosity grease that maintains its lubricating and viscosity properties under extreme heat. It is highly resistant to water or evaporation. It will not harden or break under pressure.

- **Lubricates - Chassis, Linkages, and Window/Door jams**
- **High Viscosity Grease!**
- **Water resistant!**

Directions for Use

For proper spraying, can should be at room temperature (about 72 F. / 22 C.). Surface to be lubricated should be clean, dry and free of dirt, oil, other grease, wax, etc. For pinpoint application or to get into hard-to-reach areas, firmly insert extension tube into hole in spray button. Shake can thoroughly before use. Press firmly on spray button and apply a thin, even coating over the surfaces to be lubricated. To prevent clogging of spray button, turn can upside down after use and spray until only vapor comes out.

* Always use in a well-ventilated area.

Packaging Information

STOCK NUMBER
- B800

CONTAIN SIZE
12 oz. Aerosol

UNITS/CASE
12

WT./CASE
15 lbs.

CASE/PALLET
150
