

FIX IT RIGHT™
With our complete line of products.

PB™ Penetrating Catalyst

The world famous PB B'laster Penetrating Catalyst is more than just great. PB quickly breaks loose surface tension rust and corrosion by creeping up, around and into hard-to-reach cavities. It's ideal for brake, exhaust and suspension system jobs. Plus, lubricating film remains on parts to help prevent further rusting.

PB is not just another chemical; it's a tool which eliminates the use of cheater bars and torches. Saves time and additional costly repairs.

- #1 selling penetrant in the country (based on P.O.S. data)
- Special capillary action allows PB B'laster to work where others fail!
- Preferred penetrant of mechanics everywhere
- Breaks loose surface tension of rust/frozen parts
- Non-evaporating lubricant
- Serves as a rust inhibitor
- Breaks loose surface tension of rust/frozen parts
- Higher 152° F flashpoint
- Saves time & money by ensuring user will not have to burn off or drill out nuts & bolts or other expensive & time consuming means of repairs
