

# MULTI-WAY OIL REFORMULATION

- Color will now be lighter than the past formulation
- Coloring is progressively darker as the oil gets heavier as shown in the pictures to the right
- New formulation is comparable in performance to the old formulation
- Rolling change, impacting all plants
- Current reformulation has been completed at Hartford and Savannah Lubricants Plant
- PDS will be updated as the transition progresses across all plants
- For more information, call the Technical Hotline at 877.445.9198 or your Phillips 66 Account Manager
