Description

Star Tron Enzyme Fuel Treatment is a multifunctional fuel additive which uses a unique enzyme technology that allows all engines to start easily and run smoothly, even when using ethanol-blended fuel or after sitting idle for months. Star Tron allows fuel to burn more completely, which results in maximum performance, fuel efficiency and reliable operation. Star Tron will stabilize fuel for up to two years, preventing the formation of gums and other solids that clog carburetors and fuel injectors. Star Tron helps prevent phase separation by dispersing water throughout fuel as submicron-sized droplets that can be safely eliminated while the engine operates. Star Tron Small Engine formula is ideal for use in all gas engines including: boats, cars, trucks, motorcycles, small equipment as well as engines that use pre-mix fuel.

(Star Tron Concentrated Formula #930 for fuel tanks larger than 48 gallons is also available.)

Features

- Cures and prevents most ethanol problems
- Makes all engines start easily, run smoothly; improves performance
- Removes and prevents gum, carbon and varnish
- Works in all engines and in all fuel
- Helps prevent phase separation by dispersing water throughout fuel as submicron-sized droplets that are safely eliminated while the engine operates
- Stabilizes fuel; helps rejuvenate old fuel
- 1 fl. oz. treats 6 gallons of fuel
- Reduces smoke and all other emissions
- Keeps fuel delivery system clean

Directions

INITIAL DOSAGE: Add 1 fl. oz. (30 ml) for every 3 gallons (11 L) of gas.

REFILL: Add 1 fl. oz. (30 ml) for every 6 gallons (22 L) of gas.

Always add Star Tron just before each fuel fillup. Remove cap and pour the prescribed amount into tank. Overdosing is not harmful.
